

1.7. Πρόσθεση και ανάλυση αριθμών μέχρι το 5 (iii)

1. Γράφω στο κουτάκι πόσα είναι όλα μαζί τα δάχτυλα κάθε φορά.

2. Σημειώνω στο κουτάκι πόσα είναι όλα μαζί κάθε φορά.

3. Συμπληρώνω ή σβήνω αντικείμενα από την κάθε κάρτα, για να είναι τόσα όσα δείχνει ο αριθμός κάθε φορά.

				
4	3	3	4	5
				
4	2	5	1	0

4. Μοιράζω τα 5 λουλούδια στα βάζα με διαφορετικούς τρόπους, όπως στο παράδειγμα.

The diagram illustrates the distribution of 5 flowers into two rows of three vases each. The top row shows a vase with 5 flowers, and the bottom row shows two vases with 0 and 5 flowers respectively, with the word 'και' (and) between them. The other vases in the rows are empty.
